

Dr. Kemi Ladeji-Osias is Associate Professor in the Department of Electrical and Computer Engineering at Morgan State University in Baltimore. She teaches computer and biomedical engineering courses. Dr. Ladeji-Osias earned a B.S. in electrical engineering from the University of Maryland, College Park, a Ph.D. in biomedical engineering from Rutgers, The State University of New Jersey, and a Post-Graduate Certificate in Academic Leadership from The Chicago School of Professional Psychology. Dr. Ladeji-Osias conducts research on embedded system applications, broadening participation of underrepresented minorities in engineering, and K-12 STEM education. Her work is primarily funded by the National Science Foundation and The Verizon Foundation. She serves on the Advisory Committee for Middle Atlantic Section of the American Society for Engineering Education and as an ABET Program Evaluator for the Engineering Accreditation Commission (EAC) representing IEEE.
